Fleece jumper 18103-316

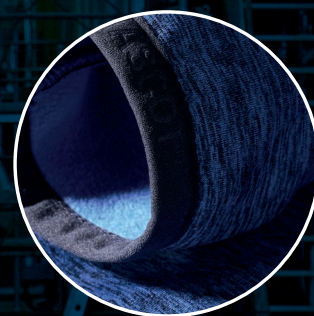

This fleece jumper has a smart, smooth surface which makes it difficult for dirt and grime to stick to the garment. The smooth surface gives the fleece jumper a slight shiny look which appears both trendy and presentable.

This jumper is soft on the inside and features a high collar that keeps the neck warm and can be zipped up nice and tight. The modern fit sits close to the body and keeps the heat in.

The stretch fabric at the sides and in the shaped sleeves provides additional freedom of movement that makes it easy to go about your work without anything feeling tight or restrictive.

The elastic bands at the wrists ensure that the sleeves are sealed to keep out both the cold and the wind.

Trouser qualities in MASCOT® ACCELERATE

ProWash® – Workwear suitable for industrial washing

ProWash® is our label for products that can withstand industrial washing and drying. Many of the products in MASCOT® ACCELERATE can withstand industrial washing and have been tested in accordance with the methods of industrial washing standard EN ISO 15797. This means we have tested the product's ability to retain its shape, the resilience of its stitching, the fabric's strength, and its propensity to shrinkage, colour changes or bleeding. Look for the ProWash® symbol in order to quickly identify whether a product is suited for industrial washing.

ULTIMATE STRETCH – elasticated material suitable for industrial washing

Stretch fabric 511 has been developed using one of the most advanced elastic fibres on the market. This means that the fabric can withstand industrial washing at temperatures of up to 75 degrees, as well as tunnel drying. This combination of elastic properties in all directions and the possibility to withstand industrial washing is a rarity on the market.

GREEN & MOSS GREEN

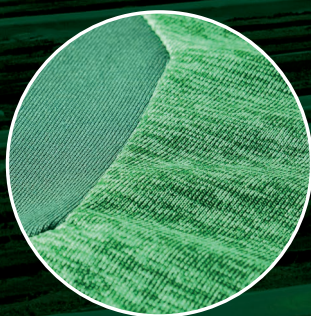

T-shirt 18091-801

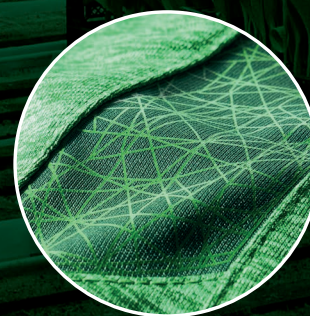

A T-shirt for the women in your company. This model is also available as a man's polo shirt (18083). Kit out the entire company with products from MACOT® ACCELERATE for a uniform and professional appearance.

This T-shirt is made from a soft, moisture-wicking and quickdrying material. When this is worn tight against the skin, it keeps you dry even if you perspire. With a COOLMAX® T-shirt as your inner layer, your skin will remain dry and your body will be protected from getting cold.

Layering up ensures optimum protection in all weather and working conditions. Choose a T-shirt as your innermost, moisture-wicking layer. Remember to combine with a warm and insulating middle layer and an outer layer that will keep you protected from the elements.

The stretch fabric at the sides gives you a great fit, where nothing feels tight or irritating. The print effects at the sleeves and sides, creates a sporty look to the overall design.

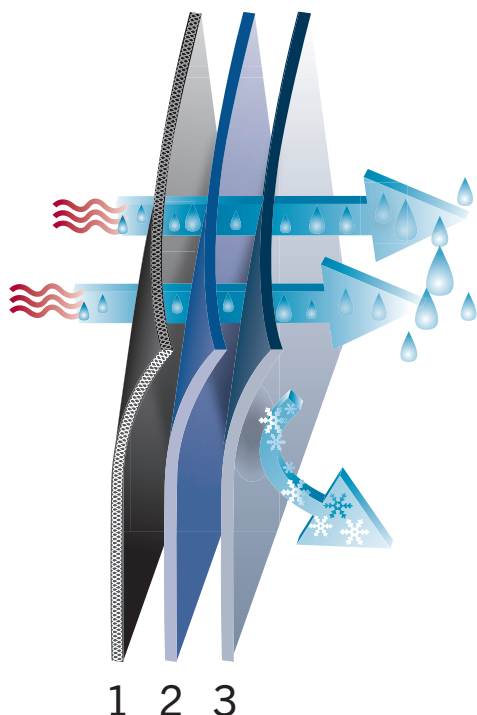

Tops for all weather conditions

No matter whether you need a moisture-wicking inner layer, an insulating middle layer or a wind and waterproof outer layer, you will find what you are after in MASCOT® ACCELERATE. Layering up provides optimum protection in all weather conditions.

18081-810 Polo Shirt, long-sleeved

1. Moisture wicking

The clothing you wear against your skin should have the ability to absorb perspiration, and distribute it over a larger area and lead it away through the other layers of your outfit.

2

KEEP WARM

INSULATING

18153-316 Fleece Jumper

3

WEATHER
PROTECTION

WIND AND WATER
PROTECTION

18335-231 Winter Jacket

2. Insulating

Above all else, the middle layer should be insulating and breathable. If it is particularly cold outside, try several thin, insulating layers.

3. Protection from the elements

The outer layer needs to be breathable to expel moisture. In addition, it should also be wind and waterproof/water-repellent.

TRAFFIC RED/BLACK

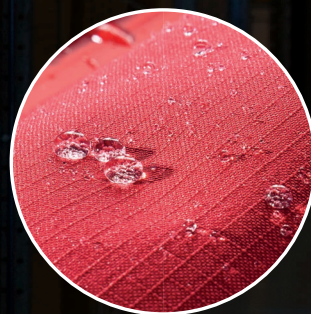

Winter jacket 18335-231

This jacket is lined with lightweight CLIMASCOT® fabric which boasts particularly high insulation properties. It effectively keeps the heat in and feels both light and soft, whilst at the same time being highly breathable.. The lining material is made from 35% recycled polyester.

The outer material of this jacket is light and durable. Moreover, CORDURA® reinforcement on the sleeves helps to further increase wear resistance and extend the lifetime of the product.

This winter jacket offers certified protection against the cold and rain in accordance with EN 342 3/WP and EN 343 3/1.

Detachable lined hood with adjustable elastic drawstring.

Chose your go-to workwear each and every time

Our ambition is to produce your new go-to workwear. The clothes you want to wear time and time again, and which always meet your needs for function and comfort. But how do we do that? Naturally, your go-to workwear needs to be of the highest quality and produced responsibly. By that we mean production characterised by efficient resource usage and the lowest possible levels of waste and emissions as a result. And naturally, it needs to stand up to heavy use. Our goal is for each and every product to become part of your go-to workwear wardrobe, your top choice time after time. Ultimately, this will not only benefit you, but the environment as well.

DARK ANTHRACITE & DARK ANTHRACITE/ BLACK

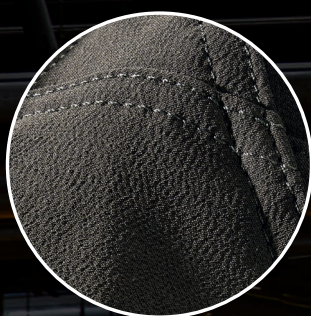

Trousers with thigh pockets 18279-511

**ULTIMATE
STRETCH
WORKWEAR**

Our stretch fabric is elastic in all directions, providing unparalleled freedom of movement without any limitations or irritations. The inner softness means you hardly notice the fabric against your skin.

The multi-functional stretch fabric combines a low weight with a very high wear resistance.

These trouser pockets are fully integrated into the design. In combination with the elastic material, this means the pockets can be filled up without affecting your freedom of movement.

The stretch fabric has been developed using the most advanced elastic fibres on the market. This means that the fabric can withstand industrial washing at temperatures of up to 75 degrees, as well as tunnel drying. These trousers are tested in accordance with the methods in industrial washing standard EN ISO 15797.

Stay warm with CLIMASCOT®

CLIMASCOT® Lightweight Insulation is an advanced and lightweight lining with excellent insulation properties, used in many of our winter and thermal jackets. The lining is both breathable and quick drying. When faced with an active day in cold conditions, you will find that CLIMASCOT® lining helps your body to rid excess heat and also keep you dry and warm. This keeps you nice and comfy no matter what the day brings.

CLIMASCOT®
Lightweight Insulation

Insulating jumpers and jackets that will keep you warm

What are you after today? Jumpers or jackets? Fleece, knitwear or quilt? We offer various insulating middle layers, that are available in six different colour combinations.

Fleece jumper with a smooth surface

18103-316 Fleece jumper
18153-316 Fleece jumper, women's fit

Composition: 94% polyester/6% elastane. Weight: 260 g/m².

- Close fit which makes the fleece suitable as an insulating layer.
- Smooth surface which prevents dirt and grime from sticking.
- Flexible and tight-fitting high collar.

Fleece jumper is also available with a short zip.

Knitted jumper with windproof membrane

18105-951 Knitted jumper
18155-951 Knitted jumper, ladies fit

Composition: 100% polyester. Weight: 300 g/m².

- This knitted jumper is comprised of three thin layers of fabric which are fused together – a presentable knitted layer on the outside, a soft fleece layer on the inside and a wind and waterproof membrane in between.
- Wear as either part or all of your insulating middle layer underneath a waterproof shell jacket to keep the heat in.
- Reflective strips on the back of the knitted jumper ensure extra visibility in your surroundings.

Fleece jacket

Fleece jacket 18303-137

Composition: 100% polyester. Weight: 270 g/m².

- Modern fit.
- Soft surface.
- Reflective strips on the back of the jacket provide extra visibility in your surroundings.

Water-repellent quilt jacket with lightweight lining

18015-318 Jacket
18025-318 Jacket, women's fit

Composition: 100% polyester. Weight: 260 g/m.

- Unique CLIMASCOT® lining ensures effective heat retention and is also light, soft and very compact when compressed. The lining material is made of 35% recycled polyester.
- Besides making an exceptional insulating middle layer, the water-repellent surface makes this garment well suited as an autumn and spring jacket.
- Stretch fabric in the sides provides exceptional freedom of movement.

18531-442

Trousers with thigh and kneepad pockets

18579-442

Trousers with stretch zones are ready to tackle any task

No matter whether the task at hand requires kneeling or holster pockets for extra tools, you will find both trousers and Bib & Brace overalls with stretch zones in the MASCOT® ACCELERATE range. You will also find durable trousers in fabric quality 442 which has been used for years in the industry and among tradespeople. To make sure nothing feels tight or irritating, products in fabric quality 442 also feature elastic inserts in fabric quality 511. This provides optimum comfort and freedom of movement. The elastic inserts are placed strategically in areas where there is a need for a little extra stretch.

STRETCH ZONES

Unique freedom of movement with stretch fabric

ULTIMATE STRETCH is the term for MASCOT's stretch fabric qualities (511 and 311), which are elastic in all directions.

MASCOT's stretch fabric is so flexible that you barely notice you are wearing it, which helps give you ultimate functionality, freedom and flexibility throughout your working day. When you wear clothing in ULTIMATE STRETCH, you will not feel weighed down by thick, heavy fabrics. On the contrary, you get lightweight workwear with a high wear resistance and excellent freedom of movement. This is workwear you just want to keep wearing.

**ULTIMATE
STRETCH
WORKWEAR**

Jacket 18015-318

This jacket features our unique CLIMASCOT® insulation. Besides ensuring effective heat retention, it is also light and takes up very little space when compressed. This makes it a practical jacket to take with you on the go.

Thanks to its compact nature and unique composition, this product works exceptionally well as an insulating middle layer. Find several middle layer products that match across the whole company.

The stretch fabric at the sides gives this jacket extra freedom of movement so you can carry out your work without restrictions.

Need a place for your ID card? The chest pocket features a detachable ID card holder.

BLACK

Trousers with kneepad pockets 18579-442

These trousers feature multiple elasticated material inserts which provide unique freedom of movement so nothing feels tight or irritating.

Kneepad pockets in durable CORDURA® are adjustable to ensure the optimal placement of your kneepads.

Our trousers come in three different leg lengths as standard: 76, 82 and 90 cm. Choose the leg length that is right for you to get the most out of your trousers' design and to make sure your kneepad pockets sit correctly.

This trouser can withstand industrial washing at up to 75 degrees and has been tested in accordance with industrial washing standard EN ISO 15797.

Wind and waterproof jackets that protect against the elements

Are you looking for a winter jacket that will keep you warm? Or a shell jacket to keep out the wind and the rain? Do you need a model which is extra durable? Check out both our winter jackets and shell jackets with CORDURA® reinforcement on the sleeves. All models are available for both men and women.

High wear resistance with CORDURA® reinforcement

High wear resistance is essential when working at a fast pace. CORDURA® is much stronger than other fabric qualities, and MASCOT uses it to reinforce those areas that are more subjected to wear and tear, such as the knees, elbows, sliding rule pockets and holster pockets. If you choose clothing reinforced with CORDURA®, you can rest assured that your work trousers and jackets will last longer.

A POSITIVE FOOTPRINT

At MASCOT, we work to reduce our consumption and our waste – and we do so by considering our entire supply and value chain. This holistic approach allows us to reduce consumption where it is most optimal to do so while holding back in places where taking action may hurt other parts of the value chain. It is not individual efforts that count, but the overall picture.

Suppliers and business partners

We work with all suppliers to reduce the use of chemicals and water in general. We also always select suppliers according to their environmental profile, and the vast majority of our fabrics come from suppliers who have both Bluesign® and ISO 14001 certifications.

Responsible production

We produce the vast majority of our products ourselves at our two SA8000-certified factories in Vietnam and Laos. The SA8000 certification is a guarantee to the outside world and our own employees that we have a safe and secure working environment and offer good working conditions adapted to local conditions.

Workwear with long-lasting durability

We produce long-lasting workwear with responsibility for the environment and people. Long durability means that, over time, the user needs to buy fewer products. Meanwhile we reduce our overall resource consumption because we produce fewer products over the same period of time.

Logistics with care

Our production is based in Vietnam and Laos and in our main warehouse in Denmark. The vast majority of our products are transported between Asia and Europe using modern container ships. We only work with shipping companies that are planning to convert their fleet from diesel engines to liquefied natural gas (LNG).

A grayscale photograph of a woman with dark hair, wearing a small flower hair clip, focused on sewing at a machine in a factory setting. Other workers and sewing machines are visible in the background.

“

We invest in people and the environment in our supply chain, and we are highly conscious of the fact that we operate in an industry that has a large impact on the climate, and where we must fundamentally change the way we make our products.

Michael Grosbøl, CEO and owner of MASCOT.

An all-in-one solution

The world's best workwear is more than just the product. At MASCOT, you are guaranteed great customer service, efficient logistics and high delivery reliability.

Time-saving ordering

With MASCOT® SmartStore you avoid spending unnecessary time on clothing orders. The logistics and ordering system makes ordering and order management easy, fast and flawless.

A global solution

Does your company have employees based in multiple countries? MASCOT makes workwear sourcing simpler with one global sourcing solution for your business.

High security of supply

More than 98% of all orders are dispatched from our state-of-the-art, fully automated logistics centre within 24 hours. We also use some of Europe's largest and most reliable freight carriers, ensuring that shipments reach our customers quickly.

Printing and embroidery

No matter which products you choose, adding transfer printing or embroidery could not be easier. MASCOT does it in-house, which helps keep delivery time down.

Individual adjustment

Does your company have special requests or require other individual customisations? MASCOT offers bespoke solutions so you always get the workwear that matches your needs and wishes.

WE OFFER MORE THAN
JUST A PRODUCT
